

Bean to cup equipment

La Cimbali M1

The La Cimbali M1 is a super automatic machine designed for locations where espresso coffee and cappuccino is desired fast and consistently using minimum counter space. This easy to use and maintain machine is available in both fully automatic and semi automatic, with the use of a Turbo Steam arm, if required, for ease of use for the operator. The M1 can deliver a complete coffee menu at the touch of a button, using fresh coffee beans and fresh milk delivering only the very best in finished beverages.
